

SUMMARY

Highly motivated and professional MERN Stack Developer with 5 months of experience building and maintaining dynamic web applications. Proficient in developing front-end user interfaces using React, creating back-end services with Node.js and Express, and managing databases with MongoDB. Skilled in writing clean, efficient code and collaborating with cross-functional teams to deliver high-quality projects. Possess exceptional problem-solving abilities, strong communication skills, and a proven capacity to learn and adapt to new technologies.

EDUCATION

College of IT and Management Education

Master of Computer Applications | 2020 – 2022
| 77%

BJB Autonomous College

Bachelor of Science in Information Technology
and Management | 2017 – 2020 | 63.3%

MBS Public School

Higher Secondary | 2015 – 2017 | 58%

St Joseph's High School

Matriculation | 2015 | 64.5%

SKILLS

- HTML, CSS, JavaScript, TypeScript
- React, Node.js, Express.js, MongoDB
- Tailwind CSS, Git, GitHub
- Tools – VS Code
- Deployment – Vercel, Render, Railway

CERTIFICATIONS

- [React and Next.js The Complete Guide 2025](#)
- [The Web Developer Bootcamp 2025](#)
- [Software Developer | Quotus](#)

PROFESSIONAL EXPERIENCE

Software Developer

Quotus Software Solutions Pvt Ltd | Sep 2024 – Jan 2025

- Built responsive web apps with the MERN Stack and Next.js, designing APIs and optimizing MongoDB for performance and scalability.
- Collaborated with teams to build scalable solutions, deliver on time, and ensure app stability.

Project

- Developed APIs for category and product management, with search, filtering, sorting, pagination, and dynamic image uploads to cloudinary or other platforms based on environment variables. Connected APIs to the frontend using **Redux Toolkit Query** and styled with Tailwind CSS for a modern, responsive design.

PROJECTS

Ecommerce Web App [Github\(Frontend\)](#) [Github\(Backend\)](#) [Live](#)

- Built a scalable e-commerce platform using MERN Stack
- Implemented Firebase authentication, Stripe payments, and robust product and order management
- Enhanced UX with error handling, advanced search filters, and optimized backend infrastructure
- Created admin dashboards with role-based access, data visualization, and fast APIs using advanced **caching** reducing API response times by **4ms**, improving performance by **99%**

Blog Web App [Github](#) [Live Link](#)

- Built a blog platform using MERN Stack
- Implemented JWT and Google OAuth authentication with role-based access for secure user and admin functionalities
- Enabled CRUD operations and advanced search with MongoDB, including sorting, filtering and a modern sidebar
- Added interactive features like liking, editing, and deleting comments to enhance community engagement
